

2016 CMRC Workplan

Category	Products	Aligned with NWSC Strategic Plan	Aligned with PSP Action Agenda	P=primary	Partnerships	Start	End	NWSC Funds ¹
Administration and Organization	Monthly, progress, final & annual reports, meeting agendas & minutes, website updates, 2016 workplan, member training	N/A	N/A	Andersen P; Lear	N/A	10/1/2015	9/30/2016	\$ 45,000.00
Marine Debris Prevention and Removal								
Beach cleanups	CMRC will raise awareness of the sources of marine debris and reduce marine debris on local beaches ~ 5 miles of beach will be cleaned; volume and type will be compiled.	Goal 3	B3 Protect and Restore Marine Ecosystems	Vreeland P; Cooper	Surfrider, PS Anglers, CoastSavers	10/1/2015	9/30/2016	\$ 2,000.00
Participation crabber outreach	Educate crabbers about how to reduce the chance of losing crab pots including participation in the #CatchMoreCrab campaign	Goal 3	B3 Protect and Restore Marine Ecosystems	Vreeland P; Hartler	NWSC, MRCs	10/1/2015	9/30/2016	see footnote
Oil Spill Response and Preparedness								
HAZWOPR and oiled wildlife training	Up to 75 volunteers receive HazWoper training and 25 volunteers per oiled wildlife class	Goal 4	B5 Protect/ Restore Native Diversity/ Abundance of PS Species	Shouten P; Bowlby	IOSA, Focus Wildlife, USCG, NWSF?	10/1/2015	9/30/2016	\$ 4,000.00
Oil Spill Geographic Response Plan Support	Assess existing baseline data availability and information gaps to support future GRP revision by Ecology	Goal 4	B5 Protect/ Restore Native Diversity/ Abundance of PS Species	Ward P; Bowlby	Ecology, Clallam GIS Department	10/1/2015	9/30/2016	\$ 10,850.00
Education & Outreach								
Speaker forums. Four local outreach events for 30 people.	Explore issues of climate change, shoreline armoring, and stormwater runoff. Provide outreach and technical support to landowners seeking to reduce impacts from armoring and runoff Explore issues of climate change, shoreline armoring, and stormwater runoff. Raise awareness of emerging issues (e.g. oil transport, ocean acidification, sea level rise/climate change) via public events that may include symposia, workshops, sponsored talks, and festivals.	Goal 1 Goal 4	B1 Focus Development away from Ecologically Important and Sensitive Nearshore Areas and Estuaries D6 Build Issue Awareness and Understanding to Increase Public Support and Engagement in Recovery Actions	Vreeland P Bowlby P; Clark	 Feiro, Dungeness Audubon	10/1/2015 10/1/2015	9/30/2015 9/30/2016	\$ 4,000.00
Dungeness River Festival	Festival participants will have an increased understanding of local and regional marine issues	Goal 4	D6 Build Issue Awareness and Understanding to Increase Public Support and Engagement in Recovery Actions	Muench P	Dungeness Audubon	10/1/2015	9/30/2016	
Internship Program	Provide a summer intern program similar to 2015	Goal 4	D6 Build Issue Awareness and Understanding to Increase Public Support and Engagement in Recovery Actions	Bowlby P		10/1/2015	9/30/2016	
Olympia Oyster Restoration								
Continue restoration in Sequim Bay	Addition of shells and monitoring of population	Goal 3	B5 Protect/ Restore Native Diversity/Abundance of Puget Sound Species	Muench P; Ward (Thom)	JSKT	10/1/2015	9/30/2016	\$ 8,700.00
Restoration feasibility in Washington Harbor	JARPA permit, updated QAPP, landowner letter of agreement, project report, presentation to PSEMP marine waters workgroup	Goal 3	B5 Protect/ Restore Native Diversity/Abundance of Puget Sound Species	Muench P; Ward (Thom)	JSKT	10/1/2015	9/30/2016	
Kelp Monitoring								
Long-term monitoring of kelp in the Strait of Juan de Fuca	List of proposed stations, list of participants, survey report including Excel data spreadsheet	Goal 3	B5 Protect/ Restore Native Diversity/Abundance of Puget Sound Species	Clark P; Collins; Ward	Hart (NWSC)	10/1/2015	9/30/2016	\$ 1,500.00

¹ During the year money will be moved, as needed, from Oil Spill Geographic Response Plan category into other categories to help funding the intern program, the Hazwoper and oiled wildlife trainings, and the crabber outreach program.
